

Pink Bow Tie After Reading

Now you have read the story, you are going to design a book cover it.

The cover of a book often has an illustration on it which gives the reader some idea of the contents. Inside the cover of the book there is often some information about the author. For example, here is the front cover of a book by popular children's author Anthony Horowitz called 'Three of Diamonds'. What do you think the book is about? What makes you think this? Do your class colleagues agree?

Here is the inside cover of the same book. It contains some information about the author. What kind of information will it contain?

Now design your cover for 'Pink Bow Tie'. It must contain a picture, the title and the name of the author.

Finally, write some information for the inside cover of the book. It must be about the author. If you are not sure what to write first check other books for the kind of information they use. Then look at some of the worksheets that you have done for this story. You can also check on the internet.
