

# School discipline

## worksheet 1

### Discussion

How does your school deal with discipline problems? Have you ever been punished at school?

I've never been punished at school,,thanks god!

Some punishments in Argentinian schools are:

- Expulsions
- Suspensions: they can last from 1 to more than 20 days
- Attention calls: a pupil is warned for his actions. This's a good idea because you can fix your actions and never do it again,, :D
- banns: if you do something incorrect like say bad words, hit someone, or,,go off from school, you'll get banns!!!!if you have got more than 15 you could be expelled!!!!

In Argentinian schools we don't have detentions or have to write lines!

Argentinian schools are FREE and, Universities are FREE too!!

I'm in fourth year of high school, this is my penultimate year,,I'll be at University in 2014!if everything goes up, I'll study English teacher,,,I hope :D

Hi niky\_02nqn! That's interesting, Argentinian schools have quite a few different kinds of punishment. So, do you think they are effective? Do they make everybody behave well in class?
