A food website asked its readers: *“Is chocolate an important part of your diet?”* Here are the answers:

Julian: I never eat chocolate because I’m allergic to it. If I eat chocolate, I get a really bad headache.

Cathy: I don’t mind chocolate but it’s not my favourite food. If someone gives me some chocolate, I eat it, but I never buy it for myself. I don’t understand these chocoholics. It’s just another type of food for me.

Tony: I love chocolate! I eat it every day. I usually have chocolate biscuits and chocolate milk for breakfast, and after lunch I usually have a chocolate bar. Before I go to sleep, I have a big cup of hot chocolate. Yes, I think I’m a real chocoholic!

Lynn: I love chocolate, but I don’t eat it every day. I only eat it once or twice a week as I know it’s not very good for you.
