9. Camels can drink 6 litres of water.  
10. Gorillas can walk on 2 or 4 legs.
1. Lions sleep up to 20 hours a day. (How many hours do your children sleep?)

2. Blue whales are bigger than elephants. In fact, they can grow 32 metres long! (How many children is that?!)}

3. Crocodiles are the biggest reptiles.

4. Anaconda snakes are the world’s longest snakes—they grow between 6-8 metres long and live in Trinidad and South America.

5. Wolves can jump up to 4 metres high—and can jump backwards, too!

6. Polar bears eat seals and fish in winter, grass and berries in summer.

7. Cheetahs can run 100 kilometres an hour.

8. Giraffes are about 6 metres tall. (How tall are your children?)

9. Camels can drink 60 litres of water in minutes! The water is stored in their humps so they don’t dehydrate in the heat.

10. Gorillas can walk on 2 or 4 legs.
