

Learning at home - text 4

Read about David.

David, 7

Learning from home is difficult for me and I really miss my school and seeing my friends. We don't have any online lessons. My teacher sends my dad lots and lots of worksheets and activities for me. My dad gives them to me but he doesn't really explain what I need to do. I can't always finish all the work. I also talk with my teacher on the phone sometimes. She is very kind and I like talking to her but soon she needs to go and talk to another classmate.

Now pretend that you are David and answer the questions.

1. Do you like learning from home?
2. How are you learning?
3. What are the good things about learning from home?
4. What problems do you have?
