Cut and stick the reptiles here:

Group copy

Mammals

Reptiles

Both

They have fur or hair.

They have scales.

Their babies drink milk from their mother.

They lay eggs.

They live on land and in water.

They are warm-blooded-their body is always the same temperature.

They are cold-blooded-their body temperature goes up and down when it's hot and cold.

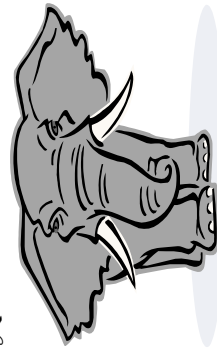

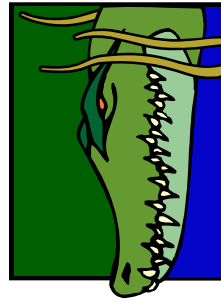

Cut & stick the mammals and reptiles in the correct spaces:

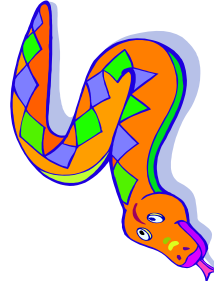

Mammals

Reptiles

Individual copy

Can you match the descriptions with the animals?

Write (m) for mammals, (r) for reptiles or (b) for both:

1. They have fur or hair.
2. They have scales.
3. Their babies drink milk from their mother.
4. They lay eggs.
5. They live on land and in water.
6. They are warm-blooded-their body is always the same temperature.
7. They are cold-blooded-their body temperature goes up and down when it's hot and cold.
