

The life cycle of a flowering plant

answer key

Write the numbers on the diagram (worksheet A and B)

Note: In worksheet A children do not have to write 'new seed' but please ask them to draw the seed in their flower after watching the video.

Complete the sentence (worksheet A)

A seed needs soil, sun, rain and air to grow.

Complete the sentences (worksheet B)

A seed needs soil, sun, rain and air to grow. A seed grows roots under the ground and a stem with leaves on it above the ground. The flower starts as a small bud. A new seed grows inside the flower.
